Control your home with a touch that feels effortless. Our Smart Keypads

Step into the future of home automation. Our intelligent ecosystem leverages a powerful trifecta of Wi-Fi, Bluetooth, and Zigbee for unparalleled, always-on connectivity. Your smartphone becomes the command center for your entire home, offering instant access and control 24/7, no matter your location. Elevate your interior with our sleek designs, available in a spectrum of modern colors and bespoke finishes that blend technology and style perfectly.

01

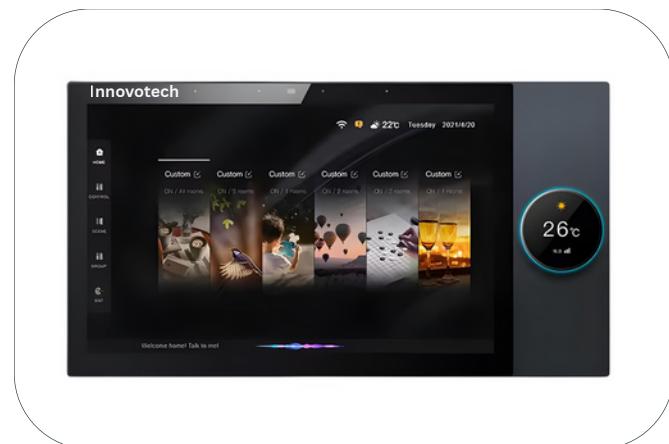

Smart Control Panel

Imagine having the power to transform your home with just a touch. Our Smart Panel lets you effortlessly manage your world—dim the lights, draw the curtains, check security cameras, greet guests with a video doorbell and set custom scenes that suit your mood. From smart switches to sensors, every smart device in your home is now just a tap away. Step into a new realm of convenience, where your home responds to you like never before.

4" Smart Control Panel

Our 4" compact touch panel brings simplicity and sophistication to your fingertips. The brain of your smart home. Imagine effortlessly managing all your devices from one sleek hub. With just a tap, you can control everything, from switches, plugs, lights, air conditioners, curtains, locks, security cameras and sensors.

7 Inch Smart Control Panel With Knob

Take charge of your home with the sleek 7" touch panel, where simplicity meets sophistication. Effortlessly adjust lights, curtains, air conditioners and more, all from one elegant interface. The intuitive rotary switch makes controlling your home's climate a breeze, while activating custom scenes is just a tap away.

Smart Lights.

Elysian Series

We believe your environment should support your well-being, and lighting is a vital part of that. Elysian Lights is not just a product; it's a philosophy. Each light is meticulously crafted to be a beautiful object that enriches your home's aesthetic, while also creating an ambiance that helps you feel centered, relaxed, and perfectly at ease.

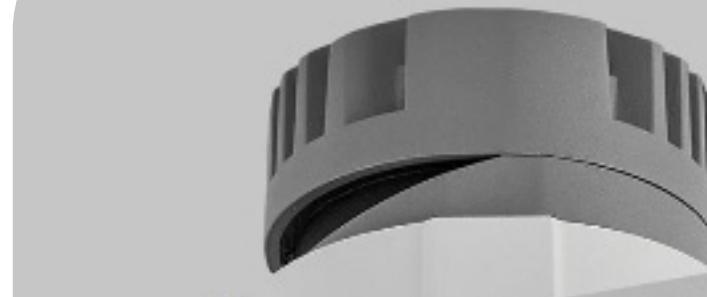

Light has the power to transform a space and a moment. With Elysian Lights, you can harness that power to shape your world. From the energy of a bright morning to the calm of a quiet evening, our lights adapt to your needs and desires. With sophisticated forms and personalized finishes, each piece is designed not just to light a room, but to complement your lifestyle and turn everyday moments into cherished memories.

02

Smart COB Lights

Don't let their size fool you. Our SmartCOB Lights deliver a powerful, high-intensity beam of light from a remarkably compact and stylish fixture. Engineered for performance, they provide uncompromised, consistent brightness that effectively illuminates any area. Thanks to efficient COB technology, you get this high-level performance with minimal energy use. For those who need clarity, visibility, and style, these lights are the perfect fit.

Specifications

Dimming: Smooth brightness control (0-100%).

Tunable White:

Adjustable color temperature (2700K - 6500K).

CRI >90:

Exceptional color rendering for true-to-life lighting.

Zigbee Control: Remote management via smartphone or voice assistant.

High-Quality COB Chip:

Equipped with premium COB chips from brands like Bridgelux and Osram for superior performance.

Multiple Reflector Options: Choose from a variety of reflector designs to suit your lighting needs.

Shape Variants: Available in both round and square designs to match different interiors.

Customizable Beam Angle:

Adjustable beam angles ranging from 10° to 55° for tailored lighting effects.

Smart Spot Light

Your home is a living space, and your lighting should be just as dynamic. Our Smart Spotlight allows you to adapt your interior at a touch. Effortlessly adjust the focus and intensity to set the scene—create a dramatic evening look, provide clear task lighting, or cast a soft, warm glow. This is intelligent, flexible lighting designed to enhance your home's best features and elevate your everyday moments.

Specifications

Magnetic Track Lights

Your home evolves, and now your lighting can too. Our Magnetic Track system is designed for modern living, offering a truly future-proof solution. As your furniture layout changes, your artwork moves, or your needs shift from day to night, simply reposition the lights in seconds. This adaptable system ensures your lighting is never obsolete, providing the perfect blend of contemporary style and long-term flexibility.

Specifications

Dimming: Smooth brightness control (0-100%).

Tunable White:

Adjustable color temperature (2700K - 6500K).

CRI >90:

Exceptional color rendering for true-to-life lighting.

Zigbee Control: Remote management via smartphone or voice assistant.

High-Quality COB Chip:

Equipped with premium COB chips from brands like Bridgelux and Osram for superior performance.

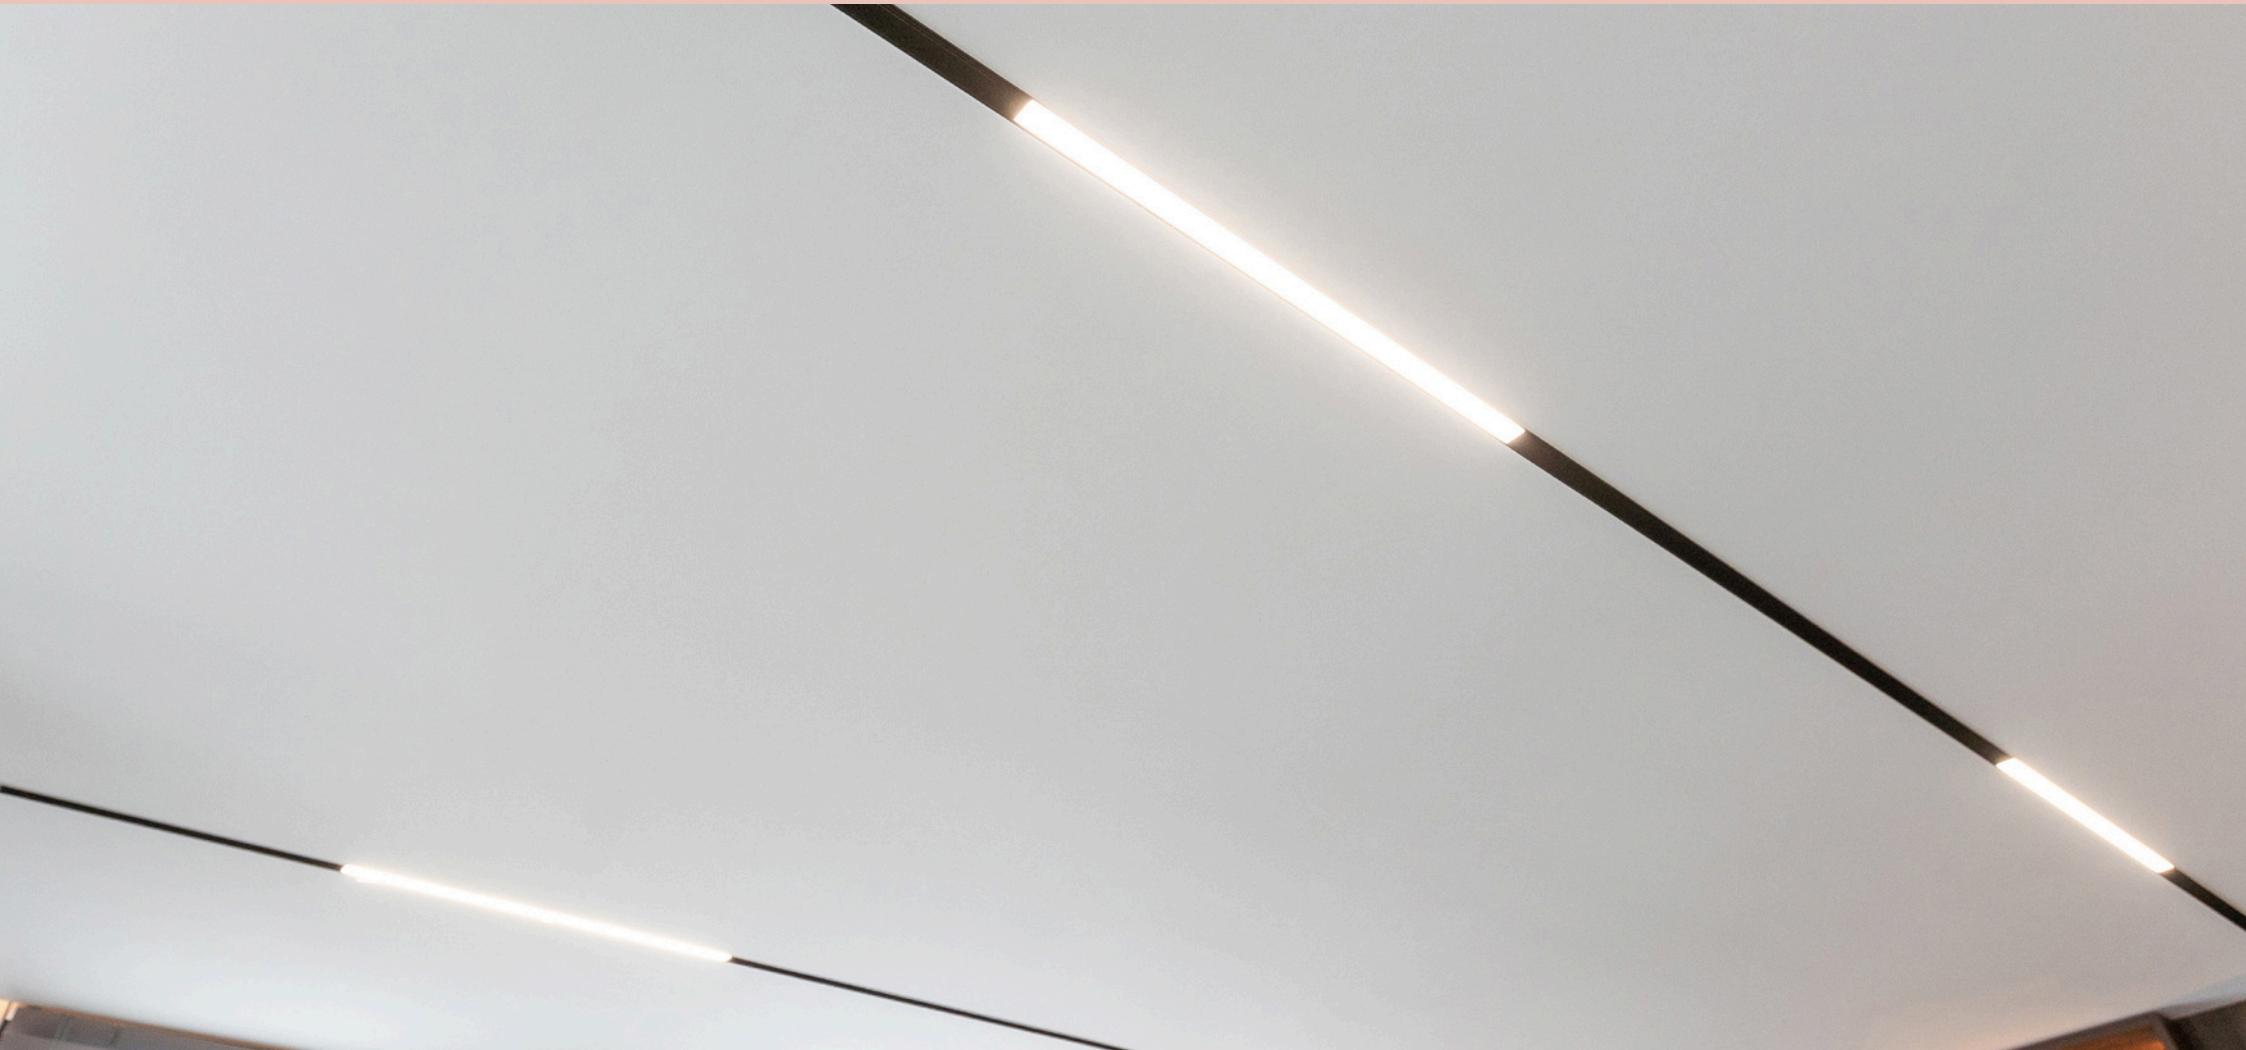

Inbuilt Driver: Compact design with an integrated driver for seamless installation and operation.

Individual or Group Control:

Control each light individually or group multiple lights for synchronized operation.

Linear Profiles

Experience light in its purest form. Our lights are designed to disappear, leaving behind only a seamless, uninterrupted line of beautiful illumination. They adapt perfectly to the unique contours of your space—integrating into coves, under cabinets, or along walls to create an ambient glow from a hidden source. This energy-efficient solution enhances your smart home by providing a layer of sophisticated, modern light that makes every corner feel intentional and beautifully lit.

Smart Curtains.

Orchestrating the light in your home, from sunrise to sunset. Our Smart Curtains sync perfectly with the rhythm of your day. Schedule them to open gently, welcoming the morning sun. Have them automatically adjust to block harsh glare, saving energy. As evening arrives, they'll close to provide complete privacy and create a warm, inviting atmosphere. With intuitive control through the Pert App and voice commands, managing your home's light and privacy has never been more convenient or graceful.

03

American Curtains

Specifications

American Curtains

Super Quiet Operation:

Take complete command of your environment with our advanced curtain motor. Beyond its silent and smooth operation, this system offers unparalleled control. Manage individual curtains or entire groups simultaneously through our user-friendly app. For the ultimate smart home, the dry contact feature allows for seamless integration with external automation systems. Combined with built-in obstacle detection for safety, it's the powerful, intelligent heart of your smart window treatments, available for both American and Ripple curtains.

Roller Blinds

Specifications

Roller Blinds

Multiple Control Options:

Your home, your light, your rules. Experience unparalleled control over your environment with our smart shades. Use a classic wall switch, a handy remote, or our powerful smartphone app to adjust your home's light and privacy from anywhere, anytime. For ultimate convenience, create pre-set schedules or integrate them into your existing smart home system. Enjoy whisper-quiet, smooth operation and a durable, stylish design that enhances any room while improving energy efficiency.

Smart Security.

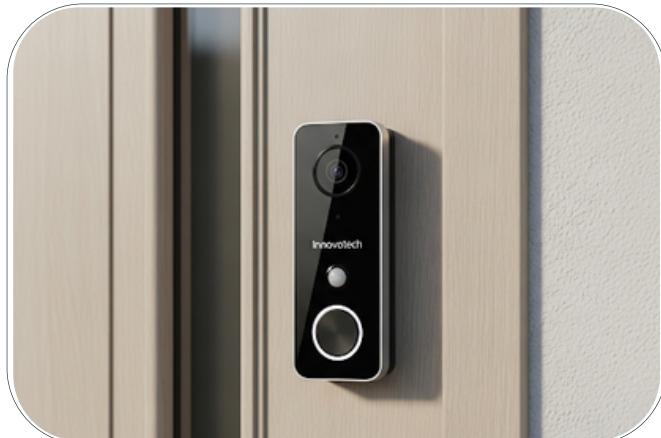

Smart security brings peace of mind in a way that's personal, empowering and easy to integrate into everyday life. Imagine being able to check in on your home, lock doors or turn on lights with a quick tap on your phone, no matter where you are. It's not just about protecting possessions—it's about creating a space that feels safe and comfortable, tailored to how you live. From instant alerts to remote control, smart security gives you the reassurance that your home is secure and adaptable to your needs, making life simpler, safer and worry-free.

04

Smart Security

By installing a smart doorbell and cameras, you can keep your home safer and eliminate risks associated with opening the door for strangers and monitor your home remotely. Pert Smart Lock not only enhances the security of your home but also makes your daily life easier and more convenient. Share access with trusted friends and family with just a few taps - no more keeping track of spare keys.

Smart Video Door Bell

Stay close to what matters most with our Video Doorbell, a smart, subtle guardian for your front door. It's always on the lookout, sending you instant alerts to your phone when someone's at the door, whether it's a friend stopping by or a package delivery. The real-time video and two-way talk let you see and speak to visitors on the spot, keeping you in control and adding that extra peace of mind. Stay informed, stay in control and feel safe no matter the time or place.

2 MP CCTV Camera

Ensure your peace of mind with our 2 MP CCTV Camera, designed to keep your home secure around the clock. Whether you're near or far, stay updated with real-time monitoring on your smartphone. With a near 360-degree view and motion detection, you can trust that there are no blind spots and every corner of your home is covered. Keep your home safe with instant alerts, easy video access and continuous monitoring, all at your fingertips.

Smart Door Lock

Say goodbye to traditional keys and embrace keyless entry, all managed from your smartphone. Lock and unlock your door from anywhere, whether you're at work, on vacation or simply across the room. With the ability to share access with trusted family and friends, you'll have complete control over who enters your home. No more worrying about misplaced keys or unexpected guests — your home's security is now always in the palm of your hand.

Smart Accessories.

Imagine your home anticipating your needs, especially at the end of a busy day. Our smart accessories are designed to do just that—

simplify your routine and reduce daily friction. Let a motion sensor light your way as you walk in, or have a smart plug turn on a lamp at sunset automatically. These intuitive devices work together, allowing you to automate tasks, control appliances remotely with your phone, and create schedules that fit your rhythm. The result is a more convenient, energy-efficient, and secure home that gives you back your time and peace of mind.

05

Specifications

This interactive table is designed for collaborative environments like modern homes, offices, retail showrooms, or educational institutions.

Display & Touch Interface

- Screen Size: 43-inch / 55-inch / 65-inch

Performance & Computing

- Operating System: Android 12 (or higher) / Windows 11 Pro
- Processor (CPU): Quad-Core or Octa-Core ARM Processor / Intel Core i5 or i7
- Memory (RAM): 4 GB / 8 GB DDR4
- Internal Storage: 64 GB / 128 GB eMMC or 256 GB SSD

Physical & Environmental

- Frame Material: Anodized Aluminum or Powder-Coated Steel
- IP Rating: IP54 Spill-Resistant Surface
- Speakers: Integrated Stereo Speakers (2 x 10W)
- Power Supply: AC 110-240V, 50/60Hz

Smart Accessories

Take command of your world with a suite of intelligent accessories. These devices are designed to put you in complete control of your environment. Working together as a unified ecosystem, they empower you to manage your home's security, convenience, and energy consumption with unparalleled ease. Whether you're at home or away, seamless control over your home and personal devices is always at your fingertips.

IR Blaster

Control all your devices—TV, AC and more—through your smartphone or voice commands. Its compact design fits seamlessly into any room, removing the clutter of multiple remotes. Smart, easy control is now at your fingertips, anytime and anywhere.

Smart Plug

Our 16 Amp Smart Plug makes smart control simple—just plug it in to instantly manage high-power and everyday devices alike. Gain seamless control over appliances, lights and electronics right from your smartphone or with voice commands, putting convenience at your fingertips.

Smart Gateway

Our Smart Gateways are available for Wi-Fi, Bluetooth, and Sigmesh connectivity, providing versatile options for seamless device management. Each gateway enables stable, reliable communication between Sigmesh-enabled devices, making automation and control effortless through your smartphone or smart home system.

Motion Sensor

It detects small objects with high precision, making it perfect for smart automation and lighting control. It easily integrates into your system, providing seamless, real-time motion detection to enhance everyday convenience.

Door Sensor

A simple, efficient solution for enhancing the security and automation of your home or office. Easily installable on doors, windows or desk drawers, it connects seamlessly to your smart IoT system, providing real-time notifications and control for added peace of mind.

Microwave Sensor Round

Our advanced microwave sensor ensures precise motion detection using high-frequency electromagnetic waves. With wide coverage and superior sensitivity, it is ideal for smart lighting, security systems, and energy-efficient automation solutions. Designed for reliability, it performs seamlessly in various indoor environments.
